

Careers at Moonlighter FabLab

# S.T.E.A.M. EDUCATOR

## Description

Moonlighter FabLab is seeking a passionate STEAM educator working in the frontiers of maker education. Create opportunities for project-based learning across core subjects to be implemented in formal and informal learning environments. Leverage technology to support and enhance student learning. Design programs that are equitable, inclusive, relevant, and responsive to learner's needs.

## Key Responsibilities

- Teach formal and informal STEAM programs and professional development.
- Prepare kits and learning materials.
- Regularly develop new NGSSS-aligned STEAM curriculum and lesson plans.
- Integrate making in lessons and educational activities.

## Requirements

- At least two years of teaching experience.
- Bachelor's Degree Minimum
- Knowledge of Computer Science, 3D Printing, Engineering and/or other Digital Fabrication is a strong plus.
- Must be able to travel to various sites in South Florida regularly.
- Must be able to proficiently use virtual conferencing and online learning platforms.
- Flexible Scheduling.
